

Tranquilliser Pistol Mod. RD406

The Powerful One.

interchangeable barrel system with quick connection coupling

The function and operation of the RD406 pistol model is virtually the same as the RD706 gun model. It is distinguished by the long range of 40 m as well as the for pistols particularly solid construction. The interchangeable barrel system (like model RD706) enables all sizes of syringe to be employed, thus allowing it to be used for all fields of application.
